REGULATIONS

COUNCIL REGULATION (EU) 2015/981

of 23 June 2015

amending Regulation (EU) No 1388/2013 opening and providing for the management of autonomous tariff quotas of the Union for certain agricultural and industrial products

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 31 thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) In order to ensure sufficient and uninterrupted supply of certain goods insufficiently produced in the Union and to avoid any disturbances on the market for certain agricultural and industrial products, autonomous tariff quotas have been opened by Council Regulation (EU) No 1388/2013 ⁽¹⁾. Products within those tariff quotas can be imported into the Union at reduced or zero duty rates. For the reasons indicated, it is necessary to open, with effect from 1 July 2015, tariff quotas at zero duty rates for an appropriate volume as regards seven new products.
- (2) In certain cases, the existing autonomous tariff quotas of the Union should be adapted. In the case of two products, it is necessary to amend the product description for clarification purposes and in order to take into account the recent product developments. In the case of six other products, the quota volumes should be increased as such increase is in the interest of economic operators of the Union.
- (3) In the case of two products, the autonomous tariff quotas of the Union should be closed with effect from 1 July 2015 and converted into autonomous tariff suspensions, as there is no longer any need to limit the import volume.
- (4) It should be clarified that any mixtures, preparations or products made up of different components containing products subject to autonomous tariff quotas are not covered by the Annex to Regulation (EU) No 1388/2013.
- (5) Regulation (EU) No 1388/2013 should therefore be amended accordingly.
- (6) Since the amendments pursuant to this Regulation should take effect from 1 July 2015, this Regulation should apply from that date,

⁽¹⁾ Council Regulation (EU) No 1388/2013 of 17 December 2013 opening and providing for the management of autonomous tariff quotas of the Union for certain agricultural and industrial products, and repealing Regulation (EU) No 7/2010 (OJ L 354, 28.12.2013, p. 319).

HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EU) No 1388/2013 is amended as follows:

(1) Article 1 is replaced by the following:

Article 1

2. Paragraph 1 does not apply to any mixtures, preparations or products made up of different components containing products listed in the Annex.;

(2) the Annex is amended as set out in the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 July 2015.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Luxembourg, 23 June 2015.

COUNCIL REGULATION (EU) 2015/982**of 23 June 2015****amending Regulation (EU) No 1387/2013 suspending the autonomous Common Customs Tariff duties on certain agricultural and industrial products**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 31 thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) It is in the interest of the Union to suspend totally the autonomous Common Customs Tariff duties on 111 products that are not currently listed in Annex I to Council Regulation (EU) No 1387/2013 ⁽¹⁾. Those new products should, therefore, be inserted into that Annex.
- (2) It is no longer in the interest of the Union to maintain the suspension of autonomous Common Customs Tariff duties on 15 of the products that are currently listed in Annex I to Regulation (EU) No 1387/2013. Those products should, therefore, be deleted from that Annex.
- (3) It is necessary to modify the product descriptions of 27 suspensions included in Annex I to Regulation (EU) No 1387/2013 in order to take account of technical product developments and economic trends in the market or to carry out linguistic adaptations. Moreover, following further scrutiny of the products specifications, CN codes for two additional products should be amended. The suspensions in respect of which modifications are necessary should be deleted from the list of suspensions in Annex I to Regulation (EU) No 1387/2013, and the modified suspensions should be inserted into that list.
- (4) In the interest of clarity, the modified entries should be marked with an asterisk.
- (5) In order to allow for appropriate statistical monitoring, Annex II to Regulation (EU) No 1387/2013 should be completed with supplementary units for some of the new products for which suspensions are granted. For reasons of consistency, the supplementary units assigned to the products deleted from Annex I to Regulation (EU) No 1387/2013 should also be deleted from Annex II to that Regulation.
- (6) It should be clarified that any mixtures, preparations or products made up of different components containing products subject to autonomous tariff suspensions are not covered by Annex I to Regulation (EU) No 1387/2013.
- (7) Regulation (EU) No 1387/2013 should therefore be amended accordingly.
- (8) Following specific administrative arrangements, the amendments pursuant to this Regulation have to take effect from 1 July 2015. This Regulation should apply from that date.
- (9) However, in order to adequately ensure the benefit of the suspension with regard to the competitive capacity of the enterprises concerned by products:
 - with TARIC code 2930 90 99 21, the suspension relating to those products should apply from 1 January 2014;
 - with TARIC code 8507 60 00 87, the suspension relating to those products should apply from 1 July 2014;
 - with TARIC codes 8409 99 00 30, 8411 99 00 60 and 8411 99 00 70, the suspension relating to those products should apply from 1 January 2015,

COMMISSION IMPLEMENTING REGULATION (EU) 2015/983**of 24 June 2015****on the procedure for issuance of the European Professional Card and the application of the alert mechanism pursuant to Directive 2005/36/EC of the European Parliament and of the Council****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 2005/36/EC of the European Parliament and of the Council of 7 September 2005 on the recognition of professional qualifications ⁽¹⁾, and in particular Articles 4a(7), 4b(4), 4e(7) and 56a(8) thereof,

After consulting the European Data Protection Supervisor,

Whereas:

- (1) The procedure for issuance of a European Professional Card (EPC) and the application of the alert mechanism provided for in Directive 2005/36/EC is to be supported by the Internal Market Information System (IMI) established by Regulation (EU) No 1024/2012 of the European Parliament and of the Council ⁽²⁾. It is therefore appropriate to provide rules on the procedure for issuance of EPC and on the application of the alert mechanism in the same implementing act.
- (2) The Commission carried out an assessment, with the involvement of the relevant stakeholders and the Member States, on the suitability of introducing the EPC for doctors, nurses, pharmacists, physiotherapists, mountain guides, real estate agents and engineers. Following that assessment the Commission has selected five professions (nurses, pharmacists, physiotherapists, mountain guides and real estate agents) for which an EPC should be introduced. The selected professions meet the requirements set out in Article 4a(7) of Directive 2005/36/EC as regards their current or potential mobility figures, their regulation in Member States as well as interest expressed by relevant stakeholders. The introduction of the EPC for doctors, engineers, specialized nurses, and specialized pharmacists needs further assessment in relation to their compliance with the conditions laid down in Article 4a(7) of Directive 2005/36/EC.
- (3) In accordance with Article 12 of Regulation (EU) No 1024/2012 the online tool referred to in Article 4b(1) of Directive 2005/36/EC should be separate from the IMI and should not enable external actors to access the IMI. It is therefore necessary to provide for detailed rules on the procedure for submitting applications for an EPC via that online tool as well as the rules on receiving EPC applications in the IMI by the competent authorities.
- (4) In order to provide transparent requirements it is also important to specify the conditions for requesting supporting documents and information from the applicants under the EPC procedure, taking into account which documents may be required by the competent authorities of the host Member State pursuant to Article 7, Article 50(1) and Annex VII to Directive 2005/36/EC. It is therefore necessary to set out the list of documents and information, including the documents that should be issued by the competent authorities of the home Member State directly, the procedures for verification of authenticity and validity of the documents by the competent authority of the home Member State and the conditions for requesting certified copies and translations. In order to facilitate the handling of an EPC application, it is appropriate to define the respective roles of all the actors involved in the EPC procedure: the applicants, the competent authorities of the home and the host Member State including the competent authorities assigned with the task of allocating EPC applications.

⁽¹⁾ OJ L 255, 30.9.2005, p. 22.

⁽²⁾ Regulation (EU) No 1024/2012 of the European Parliament and of the Council of 25 October 2012 on administrative cooperation through the Internal Market Information System and repealing Commission Decision 2008/49/EC ('the IMI Regulation') (OJ L 316, 14.11.2012, p. 1).

- (5) In accordance with Article 4b(1) of Directive 2005/36/EC, a home Member State may also allow for written applications for the EPC. It is therefore necessary to set out the arrangements that the competent authority of the home Member State should put in place in cases of written applications.
- (6) In order to ensure that the workflow in IMI is not disrupted or impaired and the processing of an application is not delayed, it is necessary to clarify the procedures concerning payments in relation to processing of an EPC application. It is therefore appropriate to provide that an applicant pays to the competent authorities of the home and/or of the host Member States separately and only if an applicant is required to do so by the competent authorities concerned.
- (7) In order to provide the applicant with a possibility to receive evidence of the outcome of the EPC procedure, it is necessary to specify the format of the document that the applicant will be able to generate via the online tool referred to in Article 4b(1) of Directive 2005/36/EC and to provide guarantees that the electronic document was issued by the relevant competent authority and that it was not modified by external actors. In order to make sure that EPC is not confused with documents giving automatic authorisation to practice in the host Member State in cases of establishment, it is appropriate to provide for inclusion of a disclaimer to this effect in the EPC document.
- (8) The EPC procedure can lead to the adoption of different types of decisions by the competent authority of the home Member State or of the host Member State. It is therefore necessary to define the possible outcomes of an EPC procedure as well as to specify, where appropriate, the information to be included in the electronic document stating the outcome of the EPC procedure.
- (9) To facilitate the task of the competent authority of the host Member State and to ensure that the verification of an issued EPC by the interested third parties is easy and user-friendly, it is appropriate to provide a centralised, online verification system of the authenticity and the validity of an EPC by the interested third parties that have no access to the IMI. That verification system should be separate from the online tool referred to in Article 4b(1) of Directive 2005/36/EC. Such verification of the EPC should not provide access for interested third parties to the IMI.
- (10) In order to ensure data protection in relation to the application of the alert mechanism, it is necessary to specify the roles of the competent authorities handling incoming and outgoing alerts and the functionalities of the IMI in withdrawing, modifying and closing alerts and ensuring the security of data processing.
- (11) In order to facilitate the restriction of access to personal data to only those authorities who need to be informed Member States should designate authorities assigned with the task of coordinating incoming alerts. Member States should only grant access to the alert mechanism to those authorities which are directly concerned by the alert. In order to ensure that alerts are sent out only in cases when they are necessary Member States should be able to designate authorities assigned with the task of coordinating outgoing alerts.
- (12) Processing of personal data pursuant to this Regulation is subject to Directive 95/46/EC of the European Parliament and of the Council ⁽¹⁾, Directive 2002/58/EC of the European Parliament and of the Council ⁽²⁾ and Regulation (EC) No 45/2001 of the European Parliament and of the Council ⁽³⁾.
- (13) The measures provided for in this Regulation are in accordance with the opinion of the Committee on the recognition of professional qualifications,

⁽¹⁾ Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data (OJ L 281, 23.11.1995, p. 31).

⁽²⁾ Directive 2002/58/EC of the European Parliament and of the Council of 12 July 2002 concerning the processing of personal data and the protection of privacy in the electronic communications sector (Directive on privacy and electronic communications) (OJ L 201, 31.7.2002, p. 37).

⁽³⁾ Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data (OJ L 8, 12.1.2001, p. 1.).

HAS ADOPTED THIS REGULATION:

CHAPTER I

SUBJECT MATTER AND THE PROCEDURE FOR THE ISSUANCE OF EPC

Article 1

Subject matter

This Regulation lays down rules on the procedure for the issuance of the European Professional Card (EPC) pursuant to Articles 4a to 4e of Directive 2005/36/EC for the professions listed in Annex I to this Regulation and on the application of the alert mechanism provided for in Article 56a of that Directive.

Article 2

Competent authorities involved in EPC procedure

1. Each Member State shall designate competent authorities responsible for EPC applications for each of the professions listed in Annex I for their entire territory or, where appropriate, parts thereof.

Having regard to the Recommendation of the European Central Bank of 27 March 2015 to the Council of the European Union on the external auditors of the Deutsche Bundesbank (ECB/2015/14) ⁽¹⁾,

Whereas:

- (1) The accounts of the European Central Bank (ECB) and of the national central banks of the Member States whose currency is the euro are to be audited by independent external auditors recommended by the Governing Council of the ECB and approved by the Council of the European Union.

COUNCIL DECISION (EU) 2015/991**of 19 June 2015**

establishing the position to be adopted on behalf of the European Union in the relevant Committees of the United Nations Economic Commission for Europe as regards the proposals for amendments to UN Regulations Nos 14, 17, 28, 29, 41, 49, 51, 54, 59, 80, 83, 95, 100, 101, 109, 117, 134 and 135, on a new UN Regulation on electric vehicle safety of category L, and on amendments to the Consolidated Resolution on the Construction of Vehicles (R.E.3)

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 114, in conjunction with Article 218(9) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) In accordance with Council Decision 97/836/EC ⁽¹⁾, the Union acceded to the Agreement of the United Nations Economic Commission for Europe (UNECE) concerning the adoption of uniform technical prescriptions for wheeled vehicles, equipment and parts which can be fitted to and/or be used on wheeled vehicles and the conditions for reciprocal recognition of approvals granted on the basis of these prescriptions ('Revised 1958 Agreement').
- (2) In accordance with Council Decision 2000/125/EC ⁽²⁾, the Union acceded to the Agreement concerning the establishing of global technical regulations for wheeled vehicles, equipment and parts which can be fitted and/or be used on wheeled vehicles ('Parallel Agreement').
- (3) Directive 2007/46/EC of the European Parliament and of the Council ⁽³⁾ replaced the approval systems of the Member States with a Union approval procedure and established a harmonised framework containing administrative provisions and general technical requirements for all new vehicles, systems, components and separate technical units. That Directive incorporated UN regulations in the EU type-approval system, either as requirements for type-approval or as alternatives to Union legislation. Since the adoption of that Directive, UN regulations have increasingly been incorporated into Union legislation in the framework of the EU type-approval.
- (4) In the light of experience and technical developments, the requirements relating to certain elements or features covered by UN Regulations Nos 14, 17, 28, 29, 41, 49, 51, 54, 59, 80, 83, 95, 100, 101, 109, 117, 134 and 135, and by the Consolidated Resolution on the Construction of Vehicles (R.E.3), need to be adapted.
- (5) In order to harmonise the relevant safety provisions for the type-approval of motor vehicles, the new UN Regulation on electric vehicles of category L should be adopted. Also, amendments to the Consolidated Resolution on the Construction of Vehicles (R.E.3) needs to be adopted to reflect technical progress.
- (6) It is therefore necessary to establish the position to be adopted on behalf of the Union in the Administrative Committee of the Revised 1958 Agreement and in the Executive Committee of the Parallel Agreement, as regards the adoption of those UN acts,

⁽¹⁾ Council Decision 97/836/EC of 27 November 1997 with a view to accession by the European Community to the Agreement of the United Nations Economic Commission for Europe concerning the adoption of uniform technical prescriptions for wheeled vehicles, equipment and parts which can be fitted to and/or be used on wheeled vehicles and the conditions for reciprocal recognition of approvals granted on the basis of these prescriptions ('Revised 1958 Agreement') (OJ L 346, 17.12.1997, p. 78).

⁽²⁾ Council Decision 2000/125/EC of 31 January 2000 concerning the conclusion of the Agreement concerning the establishing of global technical regulations for wheeled vehicles, equipment and parts which can be fitted and/or be used on wheeled vehicles ('Parallel Agreement') (OJ L 35, 10.2.2000, p. 12).

⁽³⁾ Directive 2007/46/EC of the European Parliament and of the Council of 5 September 2007 establishing a framework for the approval of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles (Framework Directive) (OJ L 263, 9.10.2007, p. 1).

HAS ADOPTED THIS DECISION:

Article 1

The position to be adopted on behalf of the Union in the Administrative Committee of the Revised 1958 Agreement and in the Executive Committee of the Parallel Agreement on 23 to 26 June 2015 shall be to vote in favour of the UN acts listed in the Annex to this Decision.

COUNCIL IMPLEMENTING DECISION (EU) 2015/992**of 19 June 2015****authorising Denmark to introduce a special measure derogating from Article 75 of Directive 2006/112/EC on the common system of value added tax**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 2006/112/EC of 28 November 2006 on the common system of value added tax ⁽¹⁾, and in particular Article 395(1) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) By letter registered with the Commission on 13 January 2015, Denmark requested authorisation to apply a measure derogating from the provisions of Directive 2006/112/EC governing the right to deduct input VAT.
- (2) The Commission informed the other Member States of the request made by Denmark by letters dated 13 and 14 February 2015. By letter dated 17 February 2015, the Commission notified Denmark that it had all the information that it deemed necessary to consider the request.
- (3) Without a derogation measure as requested, the legislation in Denmark implies that if a light goods vehicle with a maximum authorised weight of 3 tonnes is registered with the Danish authorities as being used for business purposes only, the taxable person is authorised to deduct, in full, the input VAT on the purchase and running costs of the vehicle. If such a vehicle is subsequently used for private purposes, the taxable person loses the right to deduct the VAT incurred on the purchase cost of the vehicle.
- (4) To mitigate the consequences of this regime, Denmark has requested authorisation to apply a special measure derogating from Article 75 of Directive 2006/112/EC as previously granted by Council Implementing Decision 2012/447/EU ⁽²⁾, which expired 31 December 2014. The measure allows taxable persons who have registered a vehicle as being for business purposes only to use the vehicle for non-business purposes, and to calculate the taxable amount of the deemed supply pursuant to Article 75 of Directive 2006/112/EC on a daily flat-rate basis, rather than lose their right to deduct the VAT incurred on the purchase cost of the vehicle.
- (5) The simplified calculation method should, however, be limited to 20 days of non-business use for each calendar year, and the flat-rate amount of VAT to be paid is fixed at DKK 40 for each day of non-business use. This amount has been determined by the Danish Government on the basis of an analysis of national statistics.
- (6) This measure, which should apply to light goods vehicles with a maximum authorised weight of 3 tonnes, would simplify the VAT obligations of taxable persons who make occasional non-business use of a vehicle registered for business purposes. However, it would remain possible for a taxable person to choose to register a light goods vehicle as being for both business and private use. In doing so, the taxable person would lose the right to deduct the VAT on the purchase of the vehicle but would not be required to pay a daily charge for any private use.
- (7) Allowing a measure which ensures that a taxable person who makes occasional non-business use of a vehicle registered for business purposes is not deprived of the full right to deduct the input VAT on that vehicle is consistent with the general rules on deduction as laid down by Directive 2006/112/EC.
- (8) The authorisation should be valid for a limited period and should therefore expire on 31 December 2017.

⁽¹⁾ OJ L 347, 11.12.2006, p. 1.

⁽²⁾ Council Implementing Decision 2012/447/EU of 24 July 2012 authorising Denmark to introduce a special measure derogating from Article 75 of Directive 2006/112/EC on the common system of value added tax (OJ L 202, 28.7.2012, p. 24).

- (9) In the event that Denmark requests a further extension of the derogation measure beyond 2017, it should submit a report to the Commission together with the extension request.
- (10) It is considered that the derogation will only have a negligible effect on the overall amount of tax revenue collected at the stage of final consumption and will have no adverse impact on the Union's own resources accruing from VAT,

HAS ADOPTED THIS DECISION:

Article 1

By derogation from Article 75 of Directive 2006/112/EC, where a taxable person uses for private purposes, or those of his staff, or more generally for purposes other than those of his business, a light goods vehicle which has been registered as being solely for business use, Denmark is authorised to determine the taxable amount by reference to a flat rate for each day of such use.

The flat rate per day referred to in the first paragraph shall be DKK 40.

Article 2

The measure referred to in Article 1 shall only apply to light goods vehicles with a maximum authorised total weight of 3 tonnes.

This measure shall not apply where the private use exceeds 20 days per calendar year.

Article 3

This Decision shall take effect on the date of its notification. It shall expire on 31 December 2017.

Denmark shall submit any request for the extension of the measure provided for in this Decision to the Commission by 31 March 2017. Such a request shall be accompanied by a report which includes a review of the measure.

This Decision is addressed to the Kingdom of Denmark.

COUNCIL IMPLEMENTING DECISION (EU) 2015/993**of 19 June 2015****authorising Denmark to apply a reduced rate of taxation on electricity directly provided to vessels at berth in a port, in accordance with Article 19 of Directive 2003/96/EC**

THE COUNCIL OF THE EUROPEAN UNION,

Upon the request of the Commission, Denmark provided additional information on 13 November 2014 and on 23 February 2015.
- (2) With the tax reduction it intends to apply, Denmark aims to promote the use of shore-side electricity. The use of such electricity is considered to be an environmentally less harmful way to satisfy the electricity needs of vessels lying at berth in ports, compared with the burning of bunker fuels by those vessels.
- (3) In so far as the use of shore-side electricity avoids emissions of air pollutants originating from the burning of bunker fuels by vessels at berth, it contributes to an improvement of local air quality in port cities. Under the specific conditions of the electricity generation structure in the region concerned, i.e. the Nordic electricity market including Denmark, Finland, Sweden and Norway, the use of electricity from the onshore grid instead of electricity generated by burning bunker fuels on board is furthermore expected to reduce CO₂ emissions. The measure is therefore expected to contribute to the environmental, health and climate policy objectives of the Union.
- (4) Denmark explicitly requested that the tax reduction not be applied to electricity directly supplied to private pleasure craft at berth in a port.
- (5) Allowing Denmark to apply a reduced rate of electricity taxation to shore-side electricity does not go beyond what is necessary to increase the use of shore-side electricity, since on-board generation of electricity will remain the more competitive alternative in most cases. For the same reason, and because the technology is currently not available in Denmark, the measure is unlikely to lead to significant distortions in competition during its lifetime and will thus not negatively affect the proper functioning of the internal market.
- (6) In accordance with Article 19(2) of Directive 2003/96/EC, each authorisation granted under that Article is to be strictly limited in time. In order to ensure that the authorisation period is sufficiently long so as not to discourage port operators from making the necessary investments, the authorisation should be granted for a period of six years, subject however to general provisions on the matter that may be adopted under Article 113 of the Treaty on the Functioning of the European Union (TFEU) and that become applicable prior to the anticipated expiration of the authorisation period.
- (7) This Decision is without prejudice to the application of the Union rules regarding State aid,

HAS ADOPTED THIS DECISION:

Article 1

Denmark is hereby authorised to apply a reduced rate of electricity taxation to electricity directly supplied to vessels berthed in ports, other than private pleasure craft, provided that the minimum levels of taxation referred to in Article 10 of Directive 2003/96/EC are respected.

⁽¹⁾ OJ L 283, 31.10.2003, p. 51.

Article 2

This Decision shall take effect on the date of its notification.

It shall expire six years thereafter. However, should the Council, acting on the basis of Article 113 TFEU, provide for general rules on tax advantages for shore-side electricity, this Decision shall expire on the day on which those general rules become applicable.

Article 3

This Decision is addressed to the Kingdom of Denmark.

COUNCIL DECISION (EU) 2015/994**of 23 June 2015****appointing the members and alternate members of the Committee of the Regions for the period from 26 January 2015 to 25 January 2020**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 300(3) and Article 305 thereof,

Having regard to Council Decision 2014/930/EU of 16 December 2014 determining the composition of the Committee of the Regions ⁽¹⁾,

Having regard to the proposal made by the Member State,

Whereas:

- (1) Article 300(3) of the Treaty requires that members or alternate members of the Committee of the Regions, besides being representatives of regional or local bodies, either hold a regional or local authority electoral mandate or be politically accountable to an elected assembly.
- (2) Article 305 of the Treaty provides for the members of the Committee of the Regions and an equal number of alternate members to be appointed by the Council for five years in accordance with the proposals made by each Member State.
- (3) As the term of office of the members and alternate members of the Committee of the Regions expired on 25 January 2015, it was necessary to appoint new members and alternate members.
- (4) On 26 January 2015, the Council adopted Decision (EU) 2015/116 ⁽²⁾ appointing the members and alternate members proposed by the Belgian, Bulgarian, Czech, Danish, Estonian, Irish, Greek, Spanish, French, Croatian, Italian, Cypriot, Latvian, Lithuanian, Luxembourg, Hungarian, Maltese, Dutch, Austrian, Portuguese, Romanian, Slovenian, Slovak, Finnish, and Swedish Governments, 23 members and 23 alternate members proposed by the German Government and 18 members and 16 alternate members proposed by the Polish Government for the period from 26 January 2015 to 25 January 2020. Members and alternate members whose nominations had not been communicated to the Council by 22 January 2015 could not be included in Decision (EU) 2015/116.
- (5) On 5 February 2015, the Council adopted Decision (EU) 2015/190 ⁽³⁾ appointing the remaining member and alternate member proposed by the German Government and the members and alternate members proposed by the UK Government.
- (6) After the adoption of Decisions (EU) 2015/116 and (EU) 2015/190, three Polish members and five Polish alternate members' posts remained vacant.
- (7) On 29 May 2015, a list containing three members and six alternate members proposed by the Polish government was submitted to the Council. This list includes a sixth alternate member, since Mr Marek Karol OLSZEWSKI, who was previously an alternate member, should be appointed member of the Committee of the Regions. Those members and alternate members should be appointed for the same period running from 26 January 2015 to 25 January 2020 as the members and alternates appointed by Decisions (EU) 2015/116 and (EU) 2015/190. This Decision should therefore apply retroactively from 26 January 2015,
